Our Story

Founded in 2015 as a 501(c)(3) nonprofit, **Cyber Future Foundation (CFF)** was created to build a **trusted, inclusive, and secure digital future** where innovation, commerce, and privacy can thrive.

CFF was born in response to escalating global cyber threats and the urgent need for a **collaborative, cross-sector leadership platform**. What began as a call to action has evolved into a **global movement of leaders** from government, industry, academia, and civil society.

CFF 2.0

The Next Decade

Now entering its second decade through **CFF 2.0**, we are scaling impact through comprehensive and long term impact initiatives fully supported by the leadership community we have built!

Historical Impact and Milestones

CFF is not just a think tank, it's a "Do Tank" driven by purpose, powered by people, and built for impact.

Together, we are building the future of cybersecurity - by doing.

What our Members are saying!

Mauricio Benaides
CEO, Metabase Q

The Cyber Future Foundation is leading some truly engaging discussions, from global cybersecurity priorities to innovative solutions at the crossroads of cyber, sustainability, and technology.

Tom Patterson
Managing Director - Accenture

The Cyber Future Foundation's Annual Cyber Future Dialogue at Davos was a great opportunity to discuss some of the deeper and more meaningful aspects of emerging cyber security with world leaders.

Amit Basu
Vice President, CIO & CISO
International Seaways

The Cyber Future Foundation community provides a powerful platform for cybersecurity leaders to shape global dialogue, drive innovation, and foster trusted public-private partnerships. For me, it offers a collaborative space to influence policy and champion responsible cyber resilience on a global scale.

Kirill Goncharuk
CEO & Founder - CheckEye

Cyber Future Foundation is a powerful community that brings together cybersecurity leaders to tackle global challenges. As the Country Leader for Ukraine, I see firsthand how CFF creates real opportunities for international collaboration, knowledge sharing, and strengthening digital resilience. CFF 2.0 marks a new phase that makes engagement even more effective, and I am excited to be part of this transformation, working to enhance cybersecurity in Ukraine and beyond.
